ALUMINIUM CANTILEVER GATES

We specialise in crafting fully customisable aluminium cantilever gates designed to meet your customers' exact requirements - with no hidden extras.

Key Features of Our Cantilever Gates:

Robust Warranties:

- 3-Year Warranty on Mechanical and Electrical Components
- 5-Year Warranty on Aluminium Gate Structure

Flexible Sizing Options:

- Up to 5.5 metres wide and 2.0 metres high with a 45-degree tension bar
- Up to 5.0 metres wide and 2.0 metres high with a complete board frame

Diverse Aesthetic Choices:

- Standard colors include Black, Anthracite Grey, and Wood Effect Infill
- Additional colors available upon request

Efficient Installation Process:

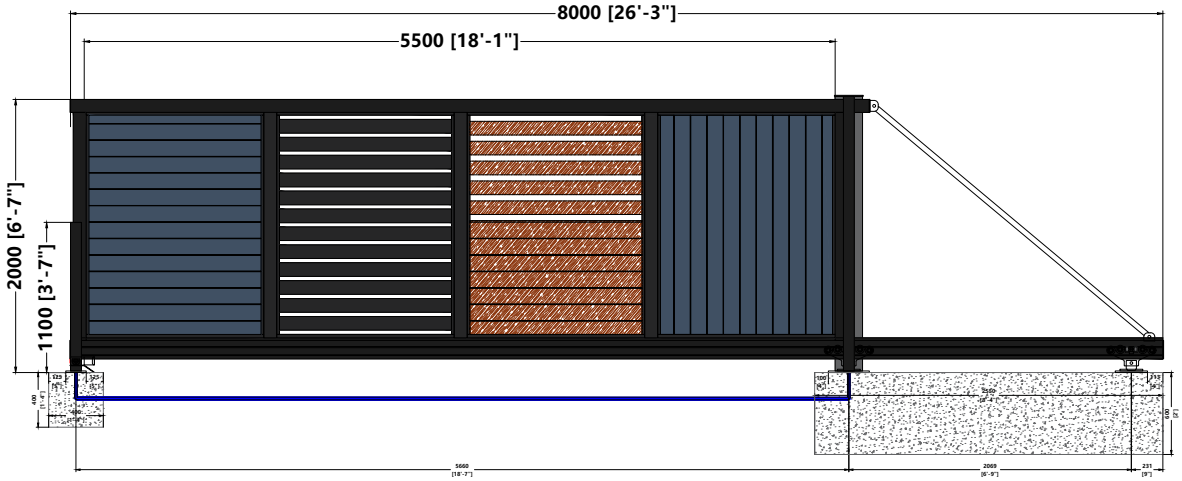
- Our sliding gates are pre-assembled, tested, and delivered to your site via our own hi-ab vehicles, ensuring a genuine "Plug & Play" installation experience

Infills Options:

- Louvre
- Open Board
- Semi-Open Board
- Fully Boarded (Horizontal or Vertical)

Operational Versatility:

- Available as Manual or Fully Automated systems

Advanced Automation Technology:


- Integrated Roger Technology Brushless Motor/Gearbox for super-intensive use
- Encoder-controlled for precision, eliminating the need for limit switches or strikers
- Equipped with dual sets of hard-wired photo cells for enhanced safety
- Features integrated nylon gear racking with a steel core, discreetly housed within our proprietary aluminium beam design
